

Nazar Buzyl

I am a dedicated aspiring web developer with a dream of becoming an experienced developer. My passion lies in front-end development. The most rewarding aspect of my work is the ability to solve complex problems and witness an impressive end product emerge from an idea. My long-term goal is to also learn full-stack development and gain diverse knowledge in the field of web development. I embarked on this path in 2021 when I decided to find my passion in the world of programming. Since then, I have spent many weekends and holidays sitting in front of the computer, learning new things, and writing code.

- Gaming

• Work History

03/2022
- 06/2022

Front-End Developer

Freelance Team, Lüneburg

- I was responsible for creating React components on the page and formatting them.
- My task also involved refactoring the code from jQuery to JavaScript throughout the website.

• Education

09/2018
- 05/2022

Physical-Mathematical, Full General Secondary Education

Ukrainian Physical-Mathematical Lyceum of Taras Shevchenko National University, Kyiv, Ukraine

08/2023
- present

T-Course, Subject-Specific University Entrance Qualification

Preparatory College, Hamburg

• Projects

Front-End Developer

Portfolio Project (portfolio-nazarbuzyl.vercel.app)

I created this project to present myself. This website showcases me, my skills, and my work experience in various languages. It also provides others with the opportunity to see all my projects with all the links to the repositories and websites that cannot be fully presented in a brief resume.
